

# NITRA - NL15

## Flock Lined Nitrile Glove

# Product Datasheet

**OUR REF:** NL15

### PRODUCT DESCRIPTION

Standard lightweight Nitrile gauntlet. Good protection against a wide range of solvents and chemicals. Sandy, roughened finish to palm and fingertips to improve grip in both wet and dry applications. Hard wearing and versatile for many different applications. Soft and flexible with good dexterity. Flock lined for wearer comfort. Suitable for use with food (see separate datasheet)

### TYPICAL APPLICATIONS:

General handling of dilute chemicals, solvents, animal fats, alkalis and petroleum related products.  
 NOTE: Not recommended for use with concentrated corrosive liquids.

**AVAILABLE SIZES:** 7/s • 8/M • 9/L • 10/XL • 11/XXL

**LENGTH:** 32 cm (13") approx

**PACKAGING: Per Pack:** 10 pairs

**Per Box:** 100 pairs

Care should be taken when removing gloves to avoid any contaminant contacting bare skin.

### Technical Details

CHEMICAL	CLASS
N-Heptane (J)	4
50% Sodium Hydroxide (K)	6
96% Sulphuric Acid (L)	2

3001  
 Abrasion | Cut | Puncture  
 Tear

Results at performance level 3 and inspection level G1 are classified as Acceptance Quality Level (AQL) = 0.65

**Antistatic** properties meet the requirements of **EN1149-1:1996** for surface resistivity  
**EC type examination carried out by:** SATRA Quality Assurance Ltd, SATRA Technology Centre, Wyndham Way, Telford Way, Kettering, Northamptonshire, NN16 8SD, United Kingdom (Notified Body No. 0321)

Details of the suitability for contact with various food categories as detailed in EEC Directive are available on request. Please quote product reference when enquiring.

- **Storage:** Gloves should be stored in a cool, dry environment in the original packaging and out of direct sunlight.
- **Maintenance:** Both new and old gloves should be thoroughly inspected before use to ensure no damage is present. Gloves should not be left in a contaminated condition if reuse is intended - if contaminated, gloves should be cleaned as far as possible
