

PRO-ELEC

INSECT KILLER

Model: PE01137

IMPORTANT SAFETY INFORMATION

Please read these instructions carefully before use and retain for future reference.

- When using electrical appliances basic safety precautions should be followed.
- Check that the voltage indicated on the rating plate corresponds with that of the local network before connecting the appliance to the mains power supply.
- High voltage! ⚡ Do not touch the inner electric grids.
- Never insert any metal objects inside the grid while it is in operation.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety in a safe way and understands the hazards involved.
- Children should be supervised to ensure that they do not play with the appliance.
- This appliance is not to be used in locations where flammable vapour or explosive dust is likely to exist.
- This appliance is designed for indoor use only.
- The appliance cannot be used in a garage, stable or similar environment.
- This appliance is intended for domestic use only. It should not be used for commercial purposes.
- Do not operate the appliance with a damaged plug or cord, after a malfunction or after being dropped or damaged in any way.
- If the supply cord is damaged, it must be replaced by a qualified engineer in order to avoid injury or hazard.
- Clean the collection tray regularly. It's recommended that you clean the device monthly or more frequently if necessary.

WHAT'S INCLUDED

- Insect Killer
- User manual

HOW IT WORKS

- The Electronic Insect Killer utilises ultra-violet rays, which is the most effective lure for light sensitive flying insects, such as flies, moths and mosquitoes.
- The insects are electrocuted by the high voltage inner grid.
- The Electronic Insect Killer involves no chemicals, no sprays, no mess, has no smell and is pollution-free and harmless to humans and pets.

MAINTENANCE

If the lamp in the Insect Killer needs replacing, please follow the instructions below.

CAUTION: Ensure the lamp is disconnected from the mains prior to changing the lamp.

Remove the collection tray by holding the appliance and turning the base 90 degrees anti-clockwise as shown above.

To access the lamp, rest a screwdriver on the base of the outer mesh and under one of the two clips, before levering the lamp holder up and away.

Remove the lamp by pulling the lamp towards you.

When inserting the new lamp make sure the pins on the lamp, line up with the holes in the lamp holder (see above) inside the appliance and it is fitted securely.

5. Then push the lamp back into place, ensuring the groove in the holder lines up with the lamp, in order to avoid damaging the lamp.
6. Place the collection tray back onto the base of the appliance and turn it clockwise until the tray clicks back into place.

CLEANING THE COLLECTION TRAY

The Insect Killer will require regular cleaning. It is recommended that you clean the tray on a monthly basis, or more frequently if necessary.

- Ensure the Insect Killer is disconnected from the mains power prior to cleaning.
- To empty the tray hold the appliance over a rubbish bag, then turn the collection tray anti-clockwise to remove it from the rest of the appliance.
- Empty the insects into a bag and wipe the tray with a soft, dry cloth if required.
- Once the tray is clean, place it back on the bottom of the appliance and turn it clockwise until it clicks back into place.

RELATED PRODUCTS

When the lamp in this product reaches the end of its life, the recommended replacement is the PRO-ELEC Spare Tube (Model: PE01140).

INFORMATION ON WASTE DISPOSAL FOR CONSUMERS OF ELECTRICAL & ELECTRONIC EQUIPMENT.

When this product has reached the end of its life it must be treated as Waste Electrical & Electronics Equipment (WEEE). Any WEEE marked products must not be mixed with general household waste, but kept separate for the treatment, recovery and recycling of the materials used. Contact your local authority for details of recycling schemes in your area.
