

ABUS Mechanical (ABU64TI40QPK)

64TI/40mm TITALIUM™ Padlock Quad Pack

The ABUS 64TI Series TITALIUM Padlocks are ideal for medium to high risk of theft recommended for a wide range of security requirements. All models in this series have a paracentric keyway and chrome plated cylinder cores. Hardened steel shackle 30mm and above with NANO PROTECT shackle coating which assures security and high corrosion resistance. TITALIUM is based on a special aluminium alloy; a mixture of materials is created which is extremely durable and lightweight; similar to the process used in aircraft construction. Compared to classic brass padlocks, the locks in the TITALIUM series are around 30% lighter but feature the same level of security making them excellent value for money. Sizes 20 to 25mm ideal for securing bags, suitcases, jewel cases, tool boxes, etc. Sizes 30mm and up ideal for securing valuable goods of medium value or at an average risk of theft. This ABUS 64TI 40 TITALIUM Padlock is supplied as a four pack, carded and has the following specification: ABUS Security Level 5, Shackle Width 22mm, Shackle Height 23mm, Shackle Diameter 6mm, Overall Width 40mm, Overall Height 62mm, Overall Depth 15mm.
