

HypaPlast Washproof Plasters, Assorted (Pack of 100)

- **Hypoallergenic Material** – Plasters designed to be gentle on sensitive skin to reduce irritation.
- **Individually Wrapped and Sterile** – Ensures maximum hygiene and ready-to-use convenience.
- **Comfortable, Flexible Design** – Conforms effortlessly to fingers, joints and other tricky areas for secure coverage.
- **Breathable, Washproof Material** – Permeable to water vapour, prevents wound maceration and allows the skin to breathe while the plaster is being worn.
- **Versatile 100-Piece Pack** – Includes 5 different sizes (2.5cm x 7.2cm, 3.8cm x 3.8cm, 5cm x 7.2cm, 1.9cm x 6.3cm, 1.9cm x 3.8cm) to suit a range of minor cuts and grazes.
- **Ideal for use in schools, sports first aid, home first aid and offices.**

The **HypaPlast Washproof Plasters** deliver convenient sterile protection to wounds, ideal for use on minor cuts and grazes. They are supplied in a pack of 100 assorted size plasters to provide cover for multiple differently sized injuries. Each plaster is individually wrapped to ensure it is hygienic and sanitary. They are made from a high-quality, comfortable and washproof material that conforms easily to body parts, ensuring that each plaster is comfortable to wear. They are also breathable to aid in comfort and support the healing process. These washproof plasters are the ideal economic option for your workplace, school or home first aid needs. **Key Benefits**

- **Washproof protection** – the plaster material is washproof, meaning it resists water and moisture, helping it remain securely in place even during handwashing or light exposure, while keeping the wound protected.
- **Hypoallergenic and skin-friendly** – made with hypoallergenic adhesive which reduces the risk of skin irritation making it suitable for people with sensitive skin.
- **Sterile and hygienic** – each plaster is individually wrapped and sterile, helping to prevent contamination when treating wounds.
- **Comfortable and flexible** – the material is designed to conform easily to different parts of the body, making it comfortable to wear.
- **Breathable for better healing** – the plasters are breathable, allowing airflow around the wound, which can help with comfort and healing.
- **Assorted sizes for different wounds** – the pack contains 100 plasters in 5 different sizes, so you can cover small cuts, larger grazes and awkward areas like fingers.
- **Cost-effective option** – a large pack of 100 plasters makes it a cost-effective option for workplaces, schools or home first aid kits that require frequent replenishing.
- **Strong adhesion** – designed with strong adhesive, the plasters stay attached to the skin even with movement or moisture. This makes them useful for fingers, knuckles or areas that bend a lot.
- **Non-stick wound pad** – the pad in the centre doesn't stick to the wound, helping to avoid pain or reopening the cut when you remove the plaster.
- **Cushions the wound** – the soft pad provides light cushioning, protecting the cut or graze from knocks and friction.
- **Prevents infection** – by covering the wound and keeping out dirt and bacteria, the plaster reduces the contamination risk while the skin heals.

Contains:

- 40 Plasters: 2.5cm x 7.2cm
- 20 Plasters: 3.8cm x 3.8cm
- 5 Plasters: 5cm x 7.2cm
- 25 Plasters: 1.9cm x 6.3cm
- 10 Plasters: 1.9cm x 3.8cm

Why Choose Washproof Plasters? Washproof plasters are a practical choice for everyday situations where wounds may come into contact with water, such as handwashing, light splashes, or routine tasks. Their durable backing is designed to resist moisture while still allowing the skin to breathe, helping to keep the wound clean and protected. This added resistance helps reduce the risk of dirt and bacteria entering the wound, supporting the natural healing process. Washproof plasters are designed to stay in place during daily activities, offering reliable coverage and comfort while you go about your day. **Why Choose HypaPlast?** With over 60 years of

Product Specifications

expertise behind it, the Hypa Range offers business-ready products that go beyond basic compliance.
