

Product Specifications

Evacuation Chair with Accessory Bundle

- Ideal Solution for any emergency evacuation situation
- Improves operator comfort and control with lower, adjustable easy-grip handle
- Seat attached all round, allowing safer lateral casualty transfers
- Removable adjustable head pad and comprehensive casualty retaining straps
- Lightweight with compact profile for easy storage and use
- Accessory bundle includes a range of signs

The Evacuation Chair is a great cost-effective emergency evacuation option. The Evacuation Chair can be handled by one person and does not require heavy lifting or manual handling. The Evacuation Chair is a safe method to transport people outside the building in case of an emergency as it glides down the stairs easily and smoothly. The Evacuation Chair helps you comply with Disability Discrimination Act and well as with the requirements of Fire Risk Assessment and is ideal to use in offices, schools and universities. The Evacuation Chair has a lower, adjustable easy-grip to make it more comfortable for the rescuer to handle the chair. The Evacuation Chair is lightweight with compact profile for easy storage and use and is supplied complete with wall bracket, cover and user guidance signage.

Accessory bundle contains: 3 x Evacuation Chair Trained Personnel Signs 20x30cm, 3 x Evacuation Chair Nearest Signs 20x30cm and 1 x Evacuation Chair Sign 20x30cm **User Manual - Saver Safe Evacuation**

Chair//Ewww.safetyfirstaid.co.uk/images/pdf/UM_Sa 0115 Sept%2024.pdf Includes a step-by-step guide with images on how to use the chair in an emergency
